

AB-250T00: Transform Contact Center Experiences with AI in Dynamics 365

Course ID #: 7000-1182-ZZ-Z

Hours: 21

Delivery Method: Group Internet Based

Course Content

Description:

This course teaches learners how to configure and operate an intelligent contact center using Microsoft contact center capabilities and integrated AI features. Learners focus on deploying and configuring contact center environments, including embedded and standalone modes, connecting data sources and third-party Contact Center as a Service (CCaaS) solutions, and enabling Copilot and agent capabilities that enhance the customer and agent experience. The course emphasizes understanding how channels, users, and security settings work together to support scalable and efficient customer engagement.

Prerequisites:

- Familiarity with Copilot Studio agent authoring, including topics and trigger phrases
- Microsoft Teams with Teams Phone configured and PSTN connectivity (for voice channel modules)
- Basic familiarity with Copilot Service workspace and the agent experience
- Basic familiarity with Power BI reports and Microsoft Fabric workspaces

Target Audience:

This course is intended for implementation professionals who are responsible for designing, configuring, and deploying contact center solutions and want to deepen their skills at the intermediate level. It is designed for learners who already understand basic contact center concepts and are ready to learn how to configure channels, users, security, work distribution, routing strategies, and AI-assisted capabilities in real-world implementations. Learners use this course to build confidence in configuring scalable, intelligent contact center solutions that support agent productivity, customer engagement, and supervisor oversight across voice and digital channels.

Topics:

Implement an AI-powered contact center with Dynamics 365:

Introduction to implementing Dynamics 365

Contact Center

- Introduction
- Explore the core capabilities of Dynamics 365 Contact Center

- Explore contact center architecture
- Security, governance, and compliance
- Discover the prebuilt AI agents and AI maturity model
- Cost and licensing
- Knowledge check
- Summary

AB-250T00: Transform Contact Center Experiences with AI in Dynamics 365

Course ID #: 7000-1182-ZZ-Z

Hours: 21

Delivery Method: Group Internet Based

Configure Dynamics 365 Contact Center core capabilities

- Introduction
- Explore the Copilot Service admin center
- Configure the Copilot Service workspace
- Embed the Contact Center widget in non-Microsoft CRM systems
- Set up Copilot and agents in Contact Center
- Manage users in Dynamics 365 Contact Center
- Configure ALM for Contact Center deployments
- Knowledge check
- Summary

Configure queues in Dynamics 365 Contact Center

- Introduction
- Create and manage queues for unified routing
- Manage queue availability
- Control work distribution within a queue
- Knowledge check
- Summary

Configure routing in Dynamics 365 Contact Center

- Introduction
- Configure workstreams and work classification rules
- Configure the engagement agent
- Configure routing
- Troubleshoot routing using conversation diagnostics
- Knowledge check
- Summary

Configure channels in Dynamics 365 Contact Center:

Configure chat and digital channels in Dynamics 365 Contact Center

- Introduction
- Overview of channels
- Configure digital channels

- Configure the chat channel
- Configure advanced settings for the chat channel
- Configure a custom channel
- Knowledge check
- Summary

Configure the voice channel in Dynamics 365 Contact Center

- Introduction
- Set up and provision the voice channel
- Set up a voice workstream
- Define voice queues
- Make and receive calls
- Integrate an IVR system with the voice channel
- Analytics, reports, and call insights
- Knowledge check
- Summary

Configure advanced settings for channels in Dynamics 365 Contact Center

- Introduction
- Manage advanced conversation settings
- Configure advanced message settings
- Configure the timeline
- Configure the Channel Integration Framework
- Configure feedback with Copilot Studio
- Knowledge check
- Summary

Design and deploy intelligent voice agents in Dynamics 365 Contact Center

- Introduction
- Understand voice agent architecture and orchestration
- Customize voice agents for your organization
- Configure multilingual voice agents
- Security and compliance for voice agents
- Knowledge check
- Summary

AB-250T00: Transform Contact Center Experiences with AI in Dynamics 365

Course ID #: 7000-1182-ZZ-Z

Hours: 21

Delivery Method: Group Internet Based

Empower customer service representatives in Dynamics 365 Contact Center:

Optimize staffing with workforce management in Dynamics 365 Contact Center

- Introduction
- Explore workforce management capabilities for your contact center
- Configure forecasting
- Configure shift management and scheduling
- Integrate third-party workforce management solutions
- Knowledge check
- Summary

Tailor the agent workspace with experience profiles in Dynamics 365 Contact Center

- Introduction
- Create and configure experience profiles
- Configure templates for sessions and notifications
- Configure the inbox for service representatives
- Knowledge check
- Summary

Accelerate service delivery with productivity tools in Dynamics 365 Contact Center

- Introduction
- Configure scripts and macros
- Enable custom productivity panels
- Enable Teams collaboration
- Extend productivity tools
- Knowledge check
- Summary

Configure knowledge management in Dynamics 365 Customer Service and Contact Center

- Introduction
- Describe the knowledge management process and configure settings
- Author and publish knowledge articles
- Configure the Customer Knowledge Management Agent
- Manage knowledge article versions, categories, and translations
- Configure internal knowledge search
- Integrate and search external knowledge sources
- Module assessment
- Summary

Configure AI agents and Copilot in Dynamics 365 Contact Center

- Introduction
- Understand the AI landscape in Dynamics 365 Contact Center
- Configure the Customer Assist Agent
- Configure the Quality Assurance Agent
- Configure the Service Operations Agent
- Configure Copilot to assist your service representatives
- Extend Copilot with plugins and measure its impact
- Knowledge check
- Summary

NASBA CPE details are provided on the following pages.

AB-250T00: Transform Contact Center Experiences with AI in Dynamics 365

Course ID #: 7000-1182-ZZ-Z

Hours: 21

Delivery Method: Group Internet Based

NASBA Information

Level: Intermediate

Advanced Preparation:

Attendance Requirement: To be awarded the full credit hours, you must sign in and attend the entire course.

Recommended Field(s) of Study: Computer Software & Applications

Recommended CPEs: 23.40

Policies: Course Registration, Cancellation, Refund, and Complaint Resolution

For more information regarding administrative policies such as complaint and program cancellation policies, please contact our offices at 800-639-3535 or visit us at: www.tcworkshop.com

Official National Registry Statement:

The Computer Workshop is registered with the National Association of State Boards of Accountancy (NASBA) as a sponsor of continuing professional education on the National Registry of CPE Sponsors. State boards of accountancy have final authority on the acceptance of individual courses for CPE credits. Complaints regarding registered sponsors may be submitted to the National Registry of CPE Sponsors through its website: www.nasbaregistry.org

NOTE: Since our information is in multiple places on our website or in PDF format that is sent to clients, we have provided our normal course content with the NASBA Information added along with links to our policy page on the web. We will add our name to the Official National Registry Statement after we are approved.
