

CN250: Docker Enterprise Bootcamp

Course ID #: 7000-455-ZZ-Z

Hours: 35

Course Content

Course Description:

In this intense cloud native bootcamp, you'll encounter containers for the first time, learn to orchestrate them into scalable, highly available applications orchestrated by Docker Swarm, and finally discover how to enhance the security of your entire software supply chain and production environments using Docker Enterprise. This is ideal for students who are just starting out with containerization and want to leverage the full power of the Docker Enterprise platform as soon as possible.

Prerequisites:

- Familiarity with the bash shell
- Filesystem navigation and manipulation
- Command line text editors like vim or nano
- Common tooling like curl, wget and ping

Target Student:

System Operators & Administrators.

Topics:

- Learn to orchestrate them into scalable, highly available applications orchestrated by Docker Swarm.
