Cisco FirePOWER Deployment, Operation & Administration (FFO)

Course ID #: 1575-994-FFO-W

Hours: 35

Course Content

Course Description:

This five-day course provides basic and advanced training on the key Firepower Threat Defense 6.2.3 features including best practices. You will learn how to deploy, operate and tune your Firepower solution. Use real world attacks and leverage Firepower to detect, block and remediate through Identity Services Engine (ISE) integration.

Target Student:

The primary audience for this course is as follows:
- Network administrators, managers, coordinators
- Anyone who requires advanced training on the Firepower Threat Defense (FTD) and Firepower management Center (FMC)
- Security technicians, administrators, and engineers
- Anyone looking at migrating from ASA to Firepower Threat Defense

Topics:

- Cisco Firepower Threat Defense Overview
- Firepower Threat Defense Device Configuration
- Cisco ASA to FTD Migration
