

Photoshop CC Part 1

Course ID #: 7000-487-ZZ-Z

Hours: 7

Course Content

Course Description:

Photoshop CC Introduction focuses on some of the basic features of Photoshop so that the student can navigate the environment and use Photoshop tools to work with photographic images. In addition, the orientation to Adobe® Bridge and organization of files in Bridge is covered. Although Photoshop is used by a variety of professionals, from photographers to designers to videographers, Photoshop Part 1 will focus mainly on the photography component. The illustration and animation techniques are covered in subsequent levels of Photoshop.

This course is a great component of your preparation for the Adobe Certified Associate (ACA) Visual Design Using Adobe Photoshop CC 2019 exam.

At Course Completion:

Students will be able to:

- Identify the components and capabilities of Photoshop.
- Create basic images.
- Manage selections and layers.
- Modify and repair images and manage color.
- Refine images by adjusting layers, using camera raw, and applying advanced image refinement.
- Import, export, organize, and save files.

Prerequisites:

To ensure your success in this course, you should have a basic comfort level with digital photography. For example, you have used a digital camera and have downloaded images to your computer or other storage device.

Target Student:

Target students include professional or amateur photographers who want to use the robust features of Photoshop to enhance, modify, and organize their photographs, and anyone interested in working toward the Visual Design Using Adobe Photoshop CC 2019 certification.
