Course Content

Description:

This AI-Empowered Leading SAFe® training course is designed to provide you with a strong foundation in the Lean-Agile mindset and practical skills to implement SAFe® at an enterprise level. You'll learn how to facilitate PI Planning events, manage Agile Release Trains (ARTs), and support large-scale Agile transformations. This course is the required training that unlocks your eligibility for the SAFe® agilist certification exam, the final step to becoming a certified SAFe® agilist and advancing your career.

Objectives:

Upon successful completion of this course, students will:

- Interpret the basic constructs of SAFe and the steps of the Implementation Roadmap
- Apply the values and principles of a Lean-Agile Mindset
- Apply SAFe's Lean and Agile principles to the roles and practices of SAFe
- Create high-performing teams by establishing mission and purpose
- Use transformational leadership to drive change, develop people, and encourage innovation
- Support PI Planning and the events
- Drive continuous value delivery through the Continuous Delivery Pipeline
- Establish alignment and execution of Strategic Themes with Lean Portfolio Management
- Coordinate multiple Agile Release Trains and suppliers with a Solution Train

Prerequisites:

There are no formal prerequisites or eligibility requirements to become a SAFe® Agilist. However, familiarity and experience with Agile concepts and environments are recommended.

Target Audience:

The Leading SAFe® Course is intended for individuals who want to lead Agile practices at scale using the SAFe® framework. This includes leaders or any professional who wants to lead a Lean-Agile transformation in their company.
