

Salesforce Einstein Analytics & Discovery Consultant (SP-ANC350)

Course ID #: 7000-428-ZZ-Z

Hours: 40

Course Content

Course Description:

This class is to teach students Salesforce Einstein Analytics and to help students prepare for the Salesforce Einstein Analytics and Discovery Consultant exam. This class is an alternative to the three Einstein Analytics classes offered by Salesforce (ANC101, ANC201 and ANC301).

A student in this class will learn how to design, build, and support apps, datasets, dashboards and stories in Einstein Analytics and Discovery, including the data ingestion process, security and access implementations, and dashboard creation.

At Course Completion:

The class presents a broad range of topics covering just about everything on which a student will be tested. These topics include but are not limited to: dataset management, permissions and security implementations, advanced Salesforce Analytics Query Language (SAQL) coding to support querying and JSON to support dashboard creation on desktop as well as mobile devices.

Prerequisites:

General technology experience
