

Windows 10 Level 1

Course ID #: 0000-100-10-W

Hours: 7

Course Content

Course Description:

Whether you're new to computers or have used them in the past, this course will help you become more comfortable using a personal computer (PC) and, more specifically, the Windows 10 interface. This course will help you define what a PC is, and familiarize you with the Windows 10 user interface and its basic capabilities. In this course, you will explore Windows 10 and learn how to work with locally installed and cloud-based apps, browse the Internet, and manage basic Windows 10 settings.

Course Objectives:

Upon successful completion of this course, students will be able to:

- Access Windows 10.
- Access locally installed applications.
- Access cloud-based apps and content.
- Manage files and folders.
- Manage the Windows 10 environment.
- Use Windows 10 security features.
- Use backup and recovery tools.

Prerequisites:

To ensure your success in this course, you should have some experience using a personal computer, desktop applications, and the Internet.

Target Audience:

This course is designed for end users who are familiar with computers and who need to use the features and functionality of the Windows 10 operating system.

Topics:

Lesson 1: Accessing Windows 10

- Log In to Windows 10
- Navigate the Windows 10 Desktop
- Use the Start Menu

Lesson 2: Accessing Locally Installed Apps

- Use Apps
- Multitask with Open Apps
- Install Apps

Windows 10 Level 1

Course ID #: 0000-100-10-W
